## **Keval Hutheesing**

Director, Product Head

### **Professional Background**

- Head of Software Products at Cygnnet Infotech
- Master's in mechanical engineering from Imperial College London
- Solid experience in statutory audit of leading technology and media clients at BDO London.

### **Proven Track Record**

- Led the expansion of Cygnnet's global indirect tax compliance tool R7VAT into new geographies.
- Developed finance and technology products used by industry leaders in the banking sector.
- Established plans for the development and commercial strategy for Cygnnet's array of software products.
- Advised a set of leading enterprise clients on tax technology implementation strategy with the goal of automating the tax reporting process.

### **Capabilities**

- Detailed knowledge on software platforms involved in tax technology and integrated systems.
- A thorough understanding of indirect tax reporting obligations in numerous geographies across Europe, South America, Middle East, and Asia.
- Expertise in tax technology approach for multinational enterprises with complex reporting requirements.
- Participated in process reviews and redesigned ideas for existing tax technology processes to enable greater efficiency with end to end automation
